

Ryan McNaught

LEGO® CERTIFIED PROFESSIONAL

Ryan McNaught established The Brickman after building his first LEGO® brick commission in 2008. Becoming a LEGO Certified Professional (LCP) in 2011 solidified his reputation as one of the world's leading LEGO brick artists. With a limited number of LCP's globally, Ryan 'Brickman' McNaught is part of an elite group and remains the only LCP in the Southern Hemisphere.

Prior to becoming an LCP, Ryan was a Chief Information Officer. In 2009, it was Ryan's Airbus A380 model build incorporating LEGO® MINDSTORMS® technology, which set Ryan on the path to become Australia's first LEGO Certified Professional! From humble beginnings, working out of his garage, The Brickman now comprises a team of over 30 dedicated craftspeople creating a wide range of LEGO models and globally touring exhibitions.

Ryan and The Brickman team specialise in making interactive models and cutaways, as well as record-breaking LEGO creations including the largest and tallest models in the Southern Hemisphere, life-sized cars, motorcycles and even an iconic Melbourne tram.

Ryan's creations have won many awards and have been displayed all around the world. In 2019, Ryan took on the role of judge and LEGO expert on Australia's award-winning TV show, LEGO Masters Australia, which just completed its 5th season – Grand Masters.

Ryan has authored 3 best-selling books on LEGO, Brickman's Family Challenges, Bricktionary – The ultimate LEGO A-Z and Brickman's Big Book of Better Builds.

In addition to his professional accomplishments, Ryan is a proud father of twin boys and enjoys completing marathons around the world with his wife. Always up for a challenge, Ryan constantly seeks to push the boundaries of what can be achieved with the humble LEGO brick. The Brickman's remarkable creations can be found in museums, galleries, LEGO Stores, and LEGO offices worldwide.
